### What is HealthNet's Sliding Fee Scale?

The Sliding Fee Scale is a discount program based on your income and family size. Discounts can greatly lower what you owe for services that qualify. It is our goal to provide high quality care to you at the lowest cost possible.

### How does the discount work?

If you qualify for a sliding fee scale discount, HealthNet will apply it to what you owe. If you or your family members have insurance, HealthNet must bill your insurance first. We will apply your discount to what you owe after your health insurance has paid.

### Will the discount lower what I owe for medicine?

Your discount can lower what you owe for your medicine at some pharmacies. Your care team can help you find which pharmacy is closest to you and accepts your discount.

### Who can apply for the discount?

Anyone can apply, even if you have health insurance.

### How do I pay my bill after my discount?

We ask all patients to pay toward their bill at each visit. If you have insurance, you must also pay your co-pay.

HealthNet offers payment plans to help you pay off what you owe. You can pay online at [www.indyhealthnet.org](http://www.indyhealthnet.org) or at your health center.

### How else can HealthNet help me lower what I owe for health care?

HealthNet's certified Enrollment Team can help you apply for health insurance. If you already have health insurance, you may still be able to add other health insurance like Medicaid.
